Sakshi Ingale

AI Intern @TeamLease Regtech

Pune, Maharashtra, India

Summary

Hi! I'm a Computer Science Engineering graduate currently working as an AI Intern at TeamLease RegTech Pvt. Ltd. My work focuses on building intelligent systems that make processes smarter, faster, and more adaptive. I'm deeply interested in how AI can learn, reason, and act autonomously , which has led me to explore Agentic AI, Generative AI, and Adaptive Learning Systems. I enjoy working on projects that combine structured knowledge with creativity, and I'm constantly learning how to make AI more reliable, contextual, and human-like in its understanding.

Also passionate about building adaptive, reasoning-based AI systems that bridge the gap between intelligence and real-world usefulness and I'm always excited to connect with people who share the same curiosity about where AI is heading next.

Experience

TeamLease Regtech Pvt. Ltd.

Artificial Intelligence Intern

September 2025 - Present (3 months)

Pune, Maharashtra, India
